THE VISION

Competition moves Thai robotics forward.

Connect companies. Grow learners.
Build for better living.

01 **COMPANIES**
Bring real challenges

02 **LEARNERS**
Build and improve

03 **PEOPLE**
Benefit from better solutions

A shared home for Thailand’s robotics community.

01 / CONNECT THE COMMUNITY

Two groups.
One shared opportunity.

Companies

BRING

Challenges, technology, mentors

GAIN

New ideas and visible talent

↔

Learners

BRING

Curiosity, skills, teamwork

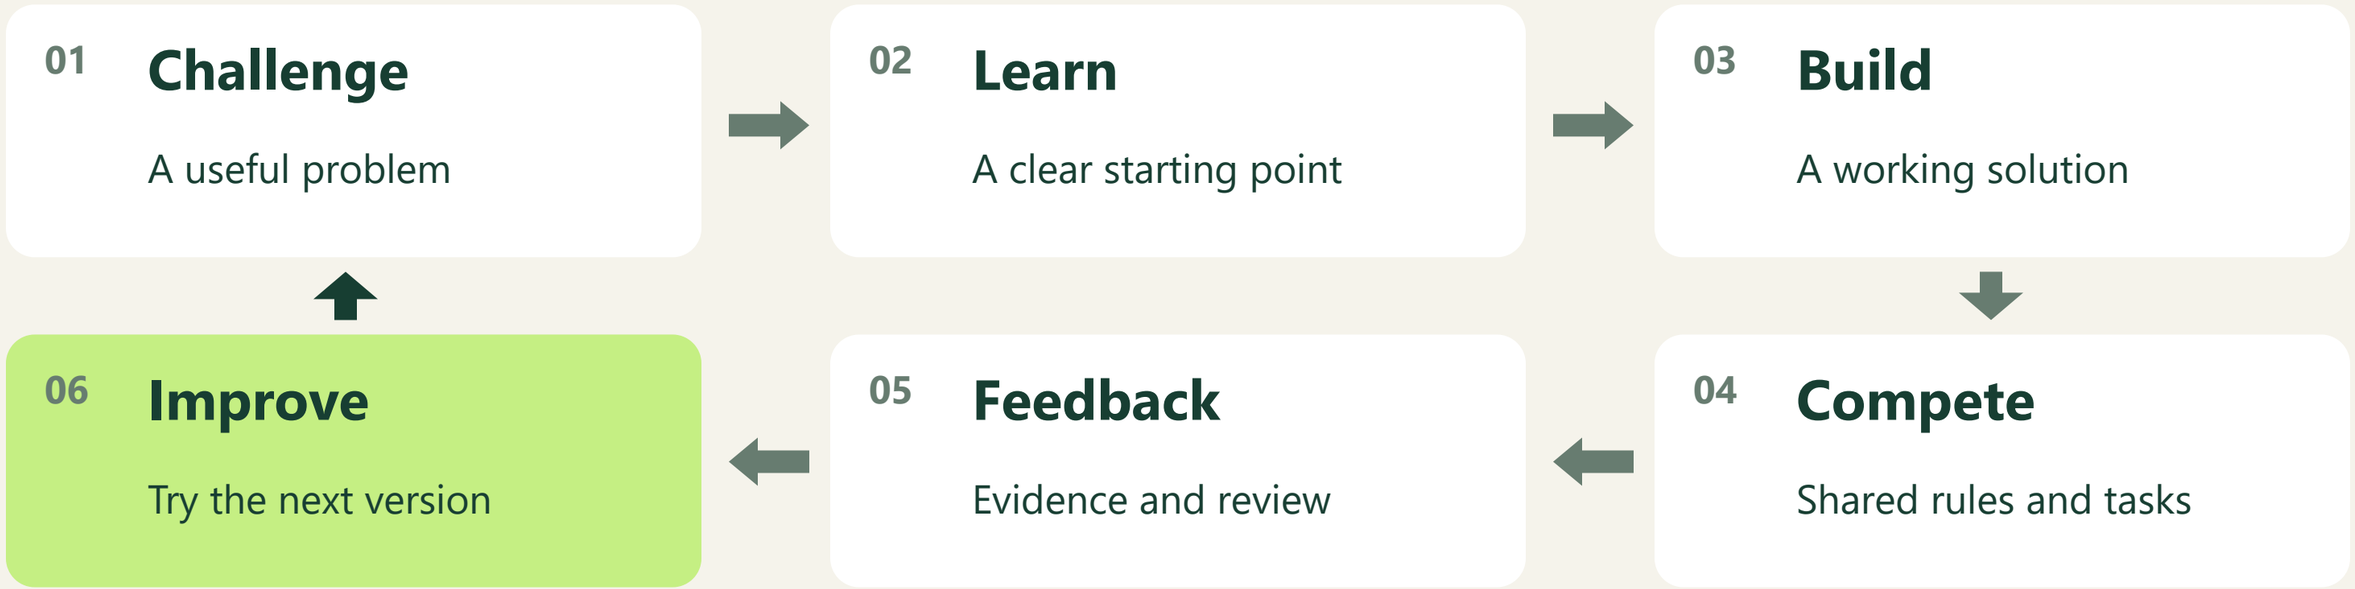

GAIN

Practice, feedback, recognition

Universities + labs + service providers support the shared journey.

02 / COMPETITION DRIVES PROGRESS

Every round should produce a better solution.

The next round turns feedback into progress.

03 / COMPETITION FOR BETTER LIVING

A better welcome.
A visitor who stays in control.

FIRST PROPOSED CHALLENGE

Find an activity room at a wellness centre.

“How would you like me to help?”

Guide me | **Call a staff member** | **Cancel**

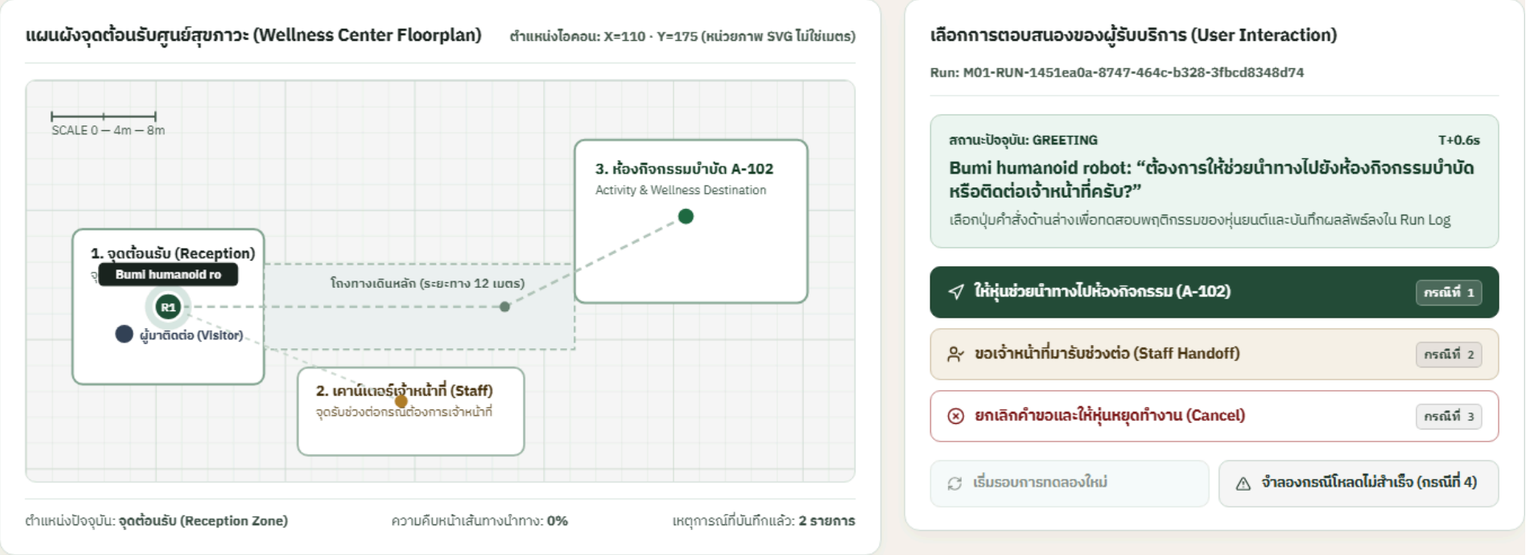

Evaluate the experience

- Task completed
- Next step understood
- Staff help / cancel works
- Comfort reported by users

Simulation today. Real-user trials are needed to establish wellbeing outcomes.

04 / A WORKING SOFTWARE PILOT

One platform supports the journey from learning to results.

Actual HRI interface • recorded simulation, not physical robot evidence

01 Learn

Robot discovery + lessons

02 Practise

Saved programs + HRI runs

03 Compete

Entries + judging + results

One challenge.
A community that keeps improving.

1	1	1
Company partner	**Learning community**	**Wellness challenge**

Measure: completed solutions • improvement • participant feedback

Help us shape the first pilot challenge.
